Mr. Gary Molchan, General Manager
Combe Landfill, Inc.
Parker Road
Chester, New Jersey 07930

Dear Mr. Molchan:

Thank you for sending the Board copies of the most recent annual inspection reports on Combe Landfill.

There is an area of concern voiced by some local residents regarding Combe Landfill that I would like to bring to your attention; specifically, the truck-washing operation at the garage. Complaints have been made regarding the runoff from the truck-washing operation into Trout Brook.

It is my impression that a holding tank is on the property for the purpose of receiving the waste water from the truck-washing operation. Is this in use at the present time?

I look forward to your reply.

Very truly yours,

Richard C. Carman
President
